The Court orders that the motion to dismiss filed under MCR 7.211(C)(2)(a) is GRANTED and the delayed application is DISMISSED. Under MCL 600.308(2)(a)(ii) and MCR 7.203(B)(2), a circuit court order deciding an appeal from the district court is appealable by application for leave to appeal to the Court of Appeals. Plaintiff did not seek leave from the circuit court order, but instead, identified the district court order in his statement of jurisdiction as the order being appealed. Furthermore, even if plaintiff had identified the circuit court order dismissing his appeal, he failed to address the merits of the circuit court's dismissal. Accordingly, this Court does not have jurisdiction to review the district court's ruling on the merits.

The Court retains no further jurisdiction.
